# ABMI Sustainability Charta

## Charta Statement

We believe that packaging is a valuable resource, not a waste, and only via this mind shift we will be able to create a new, circular economy, based on the principles of designing out waste and pollution, keeping products and materials in use, and regenerating natural systems. This is why we contribute to its communication, establishment and expansion with our know-how and technical solutions. To achieve our common goal, we collaborate with all the stakeholders of the plastic packaging industry.

We support and enable our customers to bring more sustainability into their processes and products. We achieve this by:

- jointly exploring the possibilities and expanding the set-up of a Circular Economy;
- delivering energy-efficient, resource saving equipment and options & upgrades;
- providing them with effective solutions to reduce their carbon footprint;
- working with them towards their zero-waste production goal;
- interpreting LCA data to make the packaging choice that's best for the environment.
- We believe that each and every company in the packaging industry plays its role, and that by sharing values and working together for the same objective, we will amplify the power of our individual contributions.

Approved by the ABMI Board on June 18, 2021.

Members of the ABMI:

- AETNA Group S.P.A.
- CFT S.P.A.
- GEA Procomac S.P.A.
- KOSME S.r.l.
- Kronen AG
- Gassner GmbH
- SACMI FILLING S.P.A.
- SERAC GROUP
- Sidel Group
- SIPA S.P.A.
- Vetromeccanica S.r.l.
- GEA Vipoll d.o.o.
